

# Sanitary Main Replacement

October 2022

## Background

The City of Calgary takes a proactive approach to protecting and replacing aging assets. The sanitary main replacement program reduces emergency sanitary main breaks and service interruptions by replacing corroded and worn down mains with new PVC pipe and adding protection to reduce the rate of future corrosion.

Since 1980, this program has contributed to a decrease in the number of emergency sanitary main repairs.

## Sanitary Main Replacement

We are replacing the sanitary main on **Haddon Road S.W. between 94 AV S.W. & Hardisty PL S.W.**. Homeowners of impacted properties will be contacted directly.

The sanitary main replacement in your area will begin the week of **Thursday, November 3, 2022**, and is expected to take 2 weeks to complete, but this may vary depending on the condition of soil, existing utilities and weather. Please expect some preparation, including saw cutting and material set up, to commence **November 3, 2022**.

We sincerely apologize for any inconvenience this may cause and thank you in advance for your patience and cooperation.

## Construction impacts

- Temporary street parking restrictions and/or closures.
- Vibrations due to compaction.
- Additional traffic and congestion due to construction activities and vehicles; in particular, impact to accessing parts of back lanes.
- Flaggers will be on-site to assist with access to parking lots.
- Tree pruning may be required for the safety of workers and to protect trees from accidental damage.
- Regular hours will be 7 a.m.–7 p.m. Mon to Sat.
- If sidewalks, curbs and gutters need to be removed they will be repaired to original or better condition.
- Work will be completed in phases to cover open trenches as quickly as possible. However, some residents may temporarily lose access to their driveways. We will aim to provide temporary access to those driveways and move as quickly as possible.

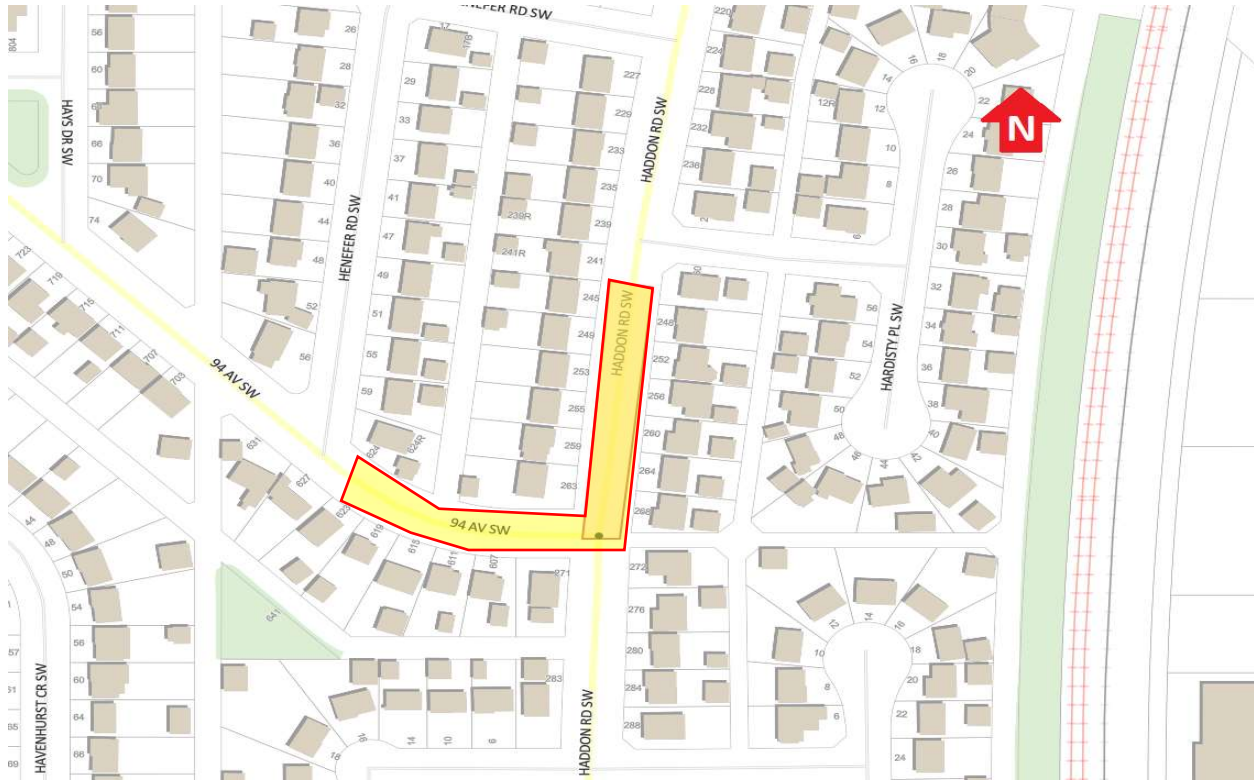

## Project information or questions

For more information about this project, contact:

Hussein Elbekai, Volker Stevin Project Coordinator  
[helbekai@volkerstevin.ca](mailto:helbekai@volkerstevin.ca)  
403-370-2918

or call 311 and ask about the sanitary main replacement program.
