

1. The 2017/18 Partners-in-Planning FCC/City of Calgary program begins Saturday October 14th 9:30-noon at the Winston Heights CA. Registration is free and can be done through the Federation of Calgary Communities website. I highly recommend members of the planning committee enroll in this workshop series – 3 core workshops and 1 elective to get your certificate.

2. Attended Calgary Planning Commission for Southland Crossing Application.

3. Attended a 14th St Ped Bridge update meeting on July 27th .

4. Attended a meeting with City of Calgary planning team, RioCan, Urban Systems, to learn and ask questions about the Southland Crossing Land Use amendment application and the proposed Direct Control District.

5. Sonja, Kourtney and Elspeth presented on the Southland Crossing Application at City Council mtg on August 1st . - see below

#### MacLeod Trail Coalition

Once the election is passed we will continue our work with our coalition. Meeting with interested parties to look at the Southland LRT and Southland Crossing area in particular. This would include the Southland Dr Road Bridge over the LRT/CPR tracks and the lack of ped/bike connectivity and access to green space in this TOD area. Deb Hamilton and Kevin Froese from City South Planning have reached out to us – they would like to do a tour of RioCan's Brentwood Site as well as the Southland Site. Also, on our to-do-list is to create a Macleod Trail Business Survey, goal to make businesses aware of CA's, try and identify ways to meet each others needs.

#### ATCO Work on HCA Site

ATCO construction is behind schedule. No update on when the community field and parking lot will be ripped up and lower pressure gas line installed.

#### Transit Route 3 becomes 37

Changes to route 3 south of Heritage Station into Fish Creek Park went in to affect this summer. No engagement or heads up were given to the CA. This needs to be communicated to the city as how to do better in the future. Would be great to invite Calgary Transit to do a presentation and take feedback on the new changes.

#### Southwood Corner

Invite from Southwood CA to our board to attend an info session on Thursday September 28th from 7-7:45pm at the Southwood Community Hall on the proposed development of Southwood Corner site (Tim Horton's strip mall area). 'I wanted to inform you that we will be hosting Sable Development and their architect, Rick Balbi on Thursday, September 28 at 7pm as they present the conceptual plans for the development they are seeking to complete at Southwood Corner.'
